WESTERN AIRCRAFT SEES OPERATORS INVESTING IN SAFETY

**Boise, Idaho -Western Aircraft,
Greenwich AeroGroup – July 29, 2009**

– Despite the poor economy, aircraft operators are still investing money in their aircraft, particularly areas enhancing safety and situational awareness. Western Aircraft recently completed a major Universal Avionics installation in a Falcon 50.

The installation was done in conjunction with a major inspection (3C) and a partial interior refurbishment in Western Aircraft's Re-Completion Center. The Universal installation included dual UNS-1Fw WAAS/SBAS-FMSs, four EFI-890R Flat Panel Displays, Terrain and Awareness System (TAWS) and the Application Server Unit (ASU) for charts, checklists, EDOCs, and WSI InFlight™ weather.

Although the economy is on everyone's minds, Western Aircraft has found many operators who want to keep their valuable business asset as safe and advanced as possible, such as the Falcon 50 modification.

Colleen Back, Vice President of Sales and Business Development, states "This particular Falcon 50 often flies in remote areas in and out of Alaska so, WAAS, VNAV and LPV capabilities are important tools that will help them accomplish their mission needs. To our knowledge, this will be the first legacy Falcon 50 that will be able to fly LPV approaches, and we are seeing more and more operators looking for a cost-efficient and reliable way to get into airports that may not have ILS approaches."

##

Greenwich AeroGroup located in Greenwich CT, owns and operates full service providers of general aviation services including: maintenance, avionics and interior refurbishments; fixed base operations; aircraft sales, charter and management; interior refurbishment; manufacturing and engineering; component repair and overhaul; and parts distribution. Current locations include: Atlantic Aero, Inc., located at Piedmont-Triad International Airport in Greensboro, NC; Western Aircraft, Inc., located at Gowen Field in Boise, ID; Summit Aviation, Inc., located at Summit Airport in Middletown, DE; DAC International located in Austin, TX, Matrix Aviation located in Wichita, KS; Professional Aviation Associates located in Atlanta, GA; and Professional Aircraft Associates located in Titusville, FL.
