Customer Comments:

From James Rollison on 21-Oct-2010

Stopped in just for gas, small plane in comparison to what was there. The Western Service Agent was very professional and in conversation said it "was the best job she's ever had, loves it there". Line service was like the MacGyver guy, wasn't anything he couldn't get or do. Just a really nice place to stop on a weekend.

From Claudius Koenig on 09-Aug-2010

Excellent service from start to finish. No problems at all. Great job!

From Joe Rainey on 12-Mar-2010

Used Western for an overnight visit and the service here is fantastic. The line guys had the car pulled up as we opened the door and helped with luggage. The girls at the front desk both coming and going were friendly, polite and knowledgeable. The facilities are some of the nicest I've ever been too and the hot chocolate is fantastic! :) I will definitely be using them again in the future. No landing or overnight fees were charged with a purchase of fuel as it should be. Thanks again!

FBO Overview

Aircraft Maintenance

We are an FAA-certified, Class IV, repair station and Factory Authorized Service Center specializing in Falcon Jet, Hawker, Pilatus and Piaggio. We are also an Authorized Service Center for King Airs. We can install interior soft goods and cabinetry upgrades while your aircraft is down for maintenance work.

Aircraft Interiors

Our recently launched Interior Re-Completion Center is off and running for operators of wide-body cabin class jets to turboprops and smaller aircraft. The Re-Completion Center can handle projects from basic re-rag projects, to custom finishings, to structural modifications and STC work. Our talented staff can help you create an environment you will want to LIVE in, not just fly in.

Avionics Sales and Installation

We are an authorized dealer for all major avionics brands, and FAA-certified to install and repair avionics, radar and autopilot. Additionally, we can install cabin entertainment systems.

Aircraft Parts

We offer an extensive inventory of aircraft parts, rotatable components and modification kits to buyers worldwide, with thousands of FAA-approved line items, on the shelf and ready to ship.

Extensive maintenance capabilities and parts supplies should your aircraft require service. 24/7.

Available hangar space at reasonable rates to keep your aircraft out of the elements.
