

# The New Standard

## in Personalized Gulfstream Aircraft Service

**Western Aircraft is your industry-leading alternative for cost-effective, timely and personalized service on your Gulfstream aircraft.**

Our expertise encompasses inspection, repair, avionics upgrades, and custom interior modifications on Gulfstream aircraft. An FAA and EASA-certified Class 4 aircraft repair station with ISO 9001:2015 and AS 9110C certification, we also hold international certifications with Mexico as well as Canadian TCCA Supplement, allowing us to return Mexican and Canadian registered aircraft to service.

### Trusted Maintenance

We've built our team around their experience with Gulfstream IV/450, V/550 and 650 aircraft. From inspections to AOG, Western Aircraft's skilled technicians provide timely, personalized service to get you back in the air as quickly as possible. Our team is supported by over 220,000 sq. ft. of hangar and support space, and a parts warehouse to ensure quality and convenient service every time. Plus, we're a Rolls-Royce Authorized Service Center for Tay and BR710 engines for Gulfstream aircraft.

### Room For Growth

Our new \$17M, 93,000 square foot expansion includes a 53,000 square foot hangar and 40,000 square feet of back office space on our 18-acre leasehold. We're better equipped now than ever to serve our Gulfstream customers. We're making room for more of everything, including capabilities and talent.

### Worldwide Service

As a worldwide parts and avionics distributor for many of the world's top aircraft manufacturers, we offer extensive product lines through partnerships with more than 45 OEMs and our AOG support is available 24/7 year-round.

### Convenient

Conveniently located for Western U.S.-based operators in beautiful Boise, Idaho, Western Aircraft's location offers ample outdoor, cultural and recreational activities for crews remaining with the aircraft. Downtime is adventure time as Boise is only a short trip from some of the West's most legendary places: Sun Valley, Hells Canyon, the Snake River and Sawtooth National Recreational Area, to name a few. In addition, Boise offers daily, nonstop flights to most major cities in the United States, making it more convenient to get here and back home.

## Available

We're independent, but we're not small. What we are is a large boutique MRO with customized programs and the kind of friendly, personalized service that puts customers first. Our quality, quick turns, shorter wait times and customer-centric approach to service offers you a real choice.

## The Better Choice

We think you'll be impressed by our service, experience and expertise, backed by our certifications. Quite simply, Western Aircraft's independent MRO offers a better and more cost-efficient choice for your Gulfstream aircraft's maintenance and upgrade needs.

## Superior Avionics

Western Aircraft's unsurpassed avionics services ensure the upgrades on your Gulfstream aircraft are second to none. We work with you to understand your needs and recommend the ideal solution for your aircraft and budget.

Our avionics capabilities include: cabin management and entertainment systems, broadband connectivity, cockpit systems and more. We install and repair a wide variety of avionics upgrade packages that are available for your Gulfstream aircraft, including:

- FANS 1A+ / CPDLC
- SATCOM solutions
- CDU and IRU upgrades
- RAAS/Smart Runway
- Service HAPP and CASP warranty programs
- A full-time engineering staff to ensure your new system or upgrades integrate flawlessly with your existing equipment.

## Quality Interior Modifications

Western Aircraft is your large-cabin business jet interior expert. Our highly experienced interiors team works to blend the finest quality materials with our design expertise and superior craftsmanship to reflect your distinctive image while protecting your investment. Our master cabinetmakers, finishers, upholsterers, carpet experts, installers, technicians and creative design staff put their decades of experience to work ensuring every last detail is perfect and unique to you.
